

ProRxx® Moss Remover & Cleaner - Concentrate

typically removes moss in one application when applied according to directions. ProRxx Moss Remover & Cleaner is an effective treatment for all types of moss, toadstools and green slime algae. After application, moss, toadstools and green slime algae may be removed by simply washing with a garden hose. Pressure washing is not necessary. Use ProRxx Concrete & Masonry Cleaner if a deeper clean of dirt and grime is desired.

ProRxx Moss Remover & Cleaner - Concentrate is safe for use on grass, artificial turf, asphalt and clay surfaces. It may be used on grass, patios, landscape walls, wooden decks, fences, pavers and roofs.

ProRxx Moss Remover & Cleaner - Concentrate can be used on structures and surfaces made from cement concrete wood, brick, block, black-top, marble, and stone.

MIXING

ProRxx Moss Remover & Cleaner - Concentrate should be mixed prior to use at a ratio of 4:1.

1 gallon of water to 1 quart of product

4 gallons of water to 1 gallon of product

20 gallons of water to 5 gallons of product

CAUTIONS

ProRxx Moss Remover & Cleaner - Concentrate is designed to be safe and non-toxic when used as directed. Although unlikely, should you experience watery eyes, headaches or dizziness, leave the area immediately. Avoid residue contact to skin and in eyes, wash with soap & water after application and removal. Keep out of reach of children.

Do not apply directly to water or to areas where surface water is present.

DIRECTIONS

1. Once the product is properly mixed, fill a pump style sprayer. Shake sprayer vigorously before using.
2. Apply spray directly on affected area holding the spray nozzle 4-8 inches from surface. Use at closer distances for dense moss. Apply generously! Apply as a spray, sweeping across the moss or algae. Spray to wet the entire surface.
3. After 2 hours use a standard garden hose with spray nozzle to remove moss and rinse the surface. No need to scrape moss or algae off, simple washing will remove moss. In some cases sunlight, wind and rain will wash moss off.

NOTE: For best results, use on a sunny day with temperatures between 50°F. and 90°F. Do not use in rain and cold temperatures as the product will lose some of its effectiveness. Extremely thick patches of moss/algae may require an additional application.

PACKAGING
